AGENCYIQ
BY POLITICO

REGULATORY WORKFLOW SOLUTION

AgencyIQ provides you with a customizable process and content management platform to seamlessly facilitate communication, education, and collaboration on important regulatory changes with your teammates and stakeholders. Our solution alleviates your concerns of information overload, thus empowering your team to increase their analytical and workload capacity—giving you a bird's eye-view of regulation.

Features

Collaboration Tools

Collections and bookmarking features enable you to retrieve and share prominent information with decision makers and influencers; and demonstrate ROI to stakeholders.

Information Management

Powerful search and customizable content recommendation allow you to quickly navigate extensive regulatory data and analysis. Set up email alerts for critical updates.

Comprehensive Tracking

Easily track bills of selective federal congressional committees and subcommittees to stay in the know when updates and changes are made.
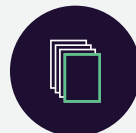

Holistic Platform

All-in-one intelligence technology with news aggregation and customizable rule and bill trackers and events calendar, and more in an easy-to-navigate interface.
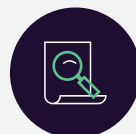

Benefits

Proactively access and track rules, bills, citizen petitions, and compliance action documents in an **all-in-one platform.**

Save and bookmark collected research to share with teammates and stakeholders.

Compare guidance document versions, track stakeholder influence, and access related resources easily through **Guidance Tracker.**

Centralize your team's policy priorities and align your communication with actionable insights.
